1. The amendment filed 1/23/04 has been considered and entered. Claims 1-11 and 28-33 have been canceled. Claims 12-27 remain in the application.
2. It is noted that the status modifiers for the latest amendment incorrectly indicated that claims 28-33 were (Withdrawn). These claims were canceled per amendments filed 6/9/99 (claims 27 and 28) and 2/14/02 (claims 30-33). The following Examiner's Amendment below corrects this oversight.
3. In light of the amendment filed 1/23/04, the 35 USC 103 rejections have been withdrawn.

Examiner's Amendment

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claims 28-33, the status modifiers "Withdrawn" have been changed to -- Canceled. --.

Art Unit: 1762

5. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figures 1 and 2 should be designated as "Prior Art". In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Reasons for Allowance

6. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or fairly suggest forming a fuel electrode of a solid oxide fuel cell comprising adding metallo-organic compounds of Y, transition metal compound, Zr to prepare a Y-ZR-transition metal, mixing NiO and Cerium oxide containing a divalent or trivalent metal to form a cermet having YSZ containing the transition metal dissolved therein, NiO and cerium oxide having a divalent or trivalent metal dissolved therein.

The prior art teaches mixing all the claimed components to form the cermet but fails to teach the combination of a transition metal compound dissolved in the YSZ and a divalent or trivalent metal dissolved in the cerium oxide. The prior art teaches the latter but not the former or the combination of the two.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
